Masters Students

- **Student: Ms Aida Muhid**
  - **Thesis Title:** Molecular epidemiology of *Cryptosporidium* and *Giardia* in pre and post-weaned cattle in Indonesia.
  - Aida was awarded her thesis in May 2010.

PhD students

- **Student: Ms Marion Macnish**
  - **Thesis Title:** The development of techniques for the molecular detection and characterisation of *Hymenolepis* spp. and studies on the epidemiology of *Hymenolepis* infections.
  - Marion was awarded her PhD in March 2002. Currently employed as Manager of the WA DNA Bank, UWA Centre for Genetic Epidemiology and Biostatistics (CGEB).

- **Student: Ms Nawal Hijjawi**
  - **Thesis Title:** Studies on the *in vitro* Cultivation and Development of *Cryptosporidium* Species.
  - Nawal was awarded her PhD in April 2003. Currently employed as a senior lecturer at Hashemite University in Jordan.

- **Student: Mr Ryan Jefferies**
  - **Thesis Title:** Emerging canine tick-borne diseases in Australia and phylogenetic studies of the canine Piroplasmida.
  - Ryan was awarded his PhD in March 2005. Currently employed as a senior research fellow at the University of Bristol, UK.

- **Student: Ms Annika Escourt**
  - **Thesis Title:** Molecular characterisation of *Cryptosporidium* with an emphasis on waterborne transmission.
  - Annika was awarded her PhD in 2012.

- **Student: Ms. Jill Austin**
  - **Thesis Title:** Molecular and biological characterization of Trypanosome parasites in native marsupials.

- **Student: Ms. Linda McInnes**
  - **Thesis Title:** Molecular Characterisation of Trypanosome parasites in Indonesia and the Philippines.

- **Student: Ms. Linda Davies**
  - **Thesis Title:** Playing with dirt: Applications for waterborne pathogen capture.

- **Student: Mr Gunn Kaewmongkol**
  - **Thesis Title:** Molecular characterisation of *Bartonella* spp.
  - Gunn was awarded his PhD in 2012.
• **Student: Mr Josh Sweeney**
  • **Thesis Title:** Determining the impact of protozoan parasites on scouring in sheep.
  • Josh submitted his PhD in 2012.

• **Student: Ms Josephine Ng**
  • **Thesis Title:** Molecular Epidemiology and metabolomics analysis *Cryptosporidium*.
  • Josephine commenced her thesis in 2009.

• **Student: Mr Pedro Martinez**
  • **Thesis Title:** Health status and diseases of quokkas.
  • Pedro commenced his PhD in 2009.

• **Student: Ms Melanie Kolnari**
  • **Thesis Title:** Molecular characterisation of nematode and protozoan parasites in sheep and fish from Papua New Guinea (PNG).
  • Melanie commenced her PhD in June in 2010.

• **Student: Ms Elvina Lee**
  • **Thesis Title:** Molecular Systematics of *Cyanobacteria*.
  • Elvina commenced her PhD in March in 2010.
